

Our Year in 2004!

These three continue to keep us running, though we would have it no other way.

Had a great time at Disney World early in the year. The girls could barely keep up with Grandma, not the other way around!

The Bronco is coming along quite nicely, though that's difficult to tell from these "Before" shots. Next year, we hope to send you the "After" photographs, particularly if we can take it four-wheeling!!

We went on quite a few camping trips this year, but the one to the Pinery in Canada was the absolute best!

Alisha's first day of school! Tara and Alisha were so excited, and we were both happy and sad (our baby is not a baby anymore!)

Motor-biking for our 10 year anniversary in San Juan Islands, WA.

(Thanks, Mom, for watching the kids!)

Our two Princesses!
