

Getting started

Design Web CT

1. You design, create, and customize your course from the BUILD tab
2. you can use COURSE TOOLS to create content (assessments, assignments, and discussion topics) for your course

Create Web Link

1. Under Course tools, click WEB LINKS
2. Click CREATE WEB LINK (see image below)
3. Fill in boxes for Title and description for your site
4. Enter the URL for the site
5. Make sure the item is visible so students can see it

The screenshot displays the Blackboard Learning System interface. At the top, the 'ILLINOIS COMPASS' logo is visible, along with the 'Blackboard Learning System Logo' and navigation tabs for 'Build', 'Teach', and 'Student View'. The left sidebar contains the 'Course Tools' menu, with 'Web Links' highlighted. The main content area shows the 'Web Links' section, where the 'Create Web Link' button is circled in red. Below this, there are sections for 'Library Links' and 'Uncategorized' links, each with a title, description, and a small icon.

Your location: **Web Link**

Web Links

Library Links

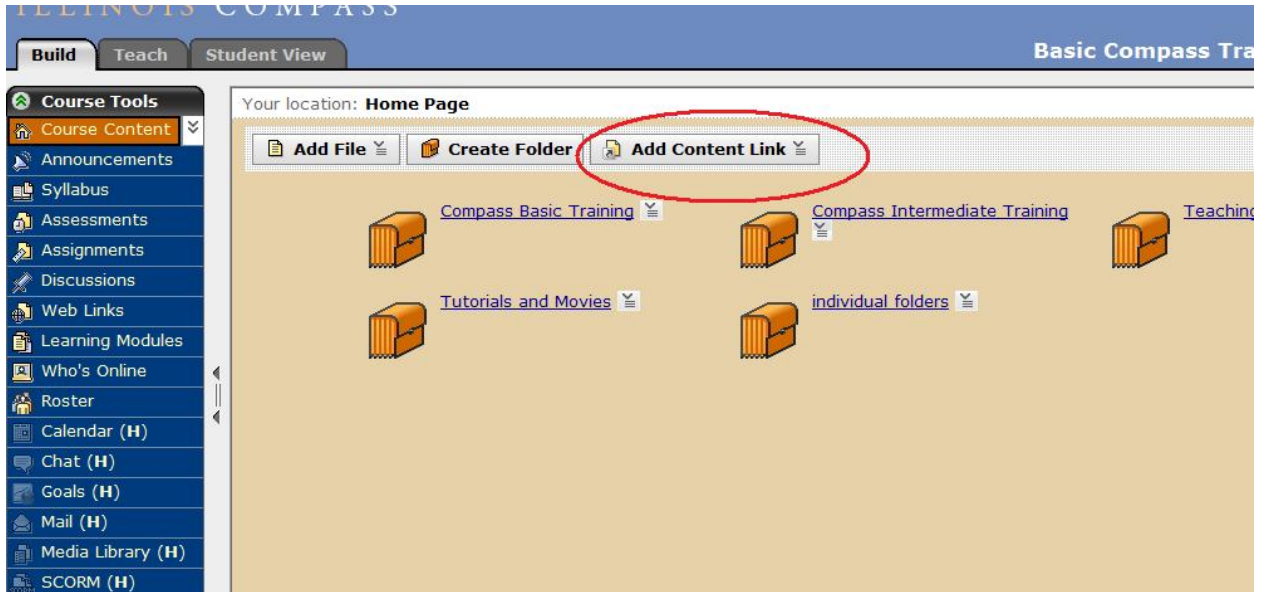

- Library Gateway**
This is the home page for all library services. This page will lead you to resources for finding print and online resources (such as books, journals, magazines, and newspapers), information on accessing materials, how to get assistance, and how to use resources through library developed tutorials and research guides.
- Ask A Librarian**
This page provides options for asking a library or research-related question either online with chat or IM, on your home or cell phone, by email, or at the reference desk.
- How do I?**
These web pages guide students through the research process and helps them better understand how to use the library and its services.
- Business and Economics Library**
The main portal for business and economics information available through the Library.
