^a Cites are taken from *Social Science Citation Index* and *webofscience.com*. Count does not include cites in unpublished papers but does include cites in published papers that reference unpublished versions of Weisbach's papers, some of which were cited under a different title. Counts do not include self-citations. Counts include all cites listed on *webofscience.com* by April 11, 2007 and hence likely understate total counts for 2006 and 2007.
